

YESHWANTRAO CHAVAN COLLEGE OF ENGINEERING, NAGPUR

(An Autonomous Institution Affiliated to Rashtrasant Tukadoji Maharaj Nagpur University)

DEPARTMENT OF INFORMATION TECHNOLOGY

2018-2019 Examination Form Portal

(Semester Long Internship Project Undertaken At Ensivo Solution Pvt. Ltd.)

NAME OF THE STUDENT: Gautam Kumar and Pooja Nakhale

NAME OF THE ACADEMIC GUIDE: Ms. Priyanka Jaiswal

NAME OF THE INDUSTRY GUIDE: Mr. Pratik Tambekar

Abstract: The purpose of this Examination form portal to reduce the time and the efforts of the students. Every student has to face the burden of standing in a long queue, waiting all day just to submit their Exam form, Online exam form portal System has reduced that burden to 0%. Now students can submit their form online from their home or cyber cafe without standing or waiting in a long queue. It provides an easy to use platform for both admin(college) and student. Examination form portal System is very useful for Educational Institute to automatically generates the exam form of a student, to make the paperless system. Administrator has privileges to create, modify and insert the student data. User can login to form with his specific id and can access the exam form. The purpose of online exam form portal system is to automate the existing manual work system with the help of computerized equipment. This system describes as above can lead to error free, secure, reliable and fast management system.

Introduction:

The purpose of examination form portal system is to automate the existing manual work system by the help of computerized equipment. Every student has to face the burden of standing in a long queue, waiting all day just to submit their Exam form, Online exam form portal System has reduced that burden to 0%. Now students can submit their form online from their home or cyber cafe without standing or waiting in a long queue. This project has mainly three modules. 1.Admin Panel,2. Student Panel,3. Payment Gateway. Admin Panel- It generate the exam form for student. Student Panel-Student can login and fill exam form and submit after that go to payment. Limitation of no of student can give examination at a time. Advantages of this project Handshake to digital world, save time and efforts, save paper, save environment, Group report performance analysis.

Work Flow:

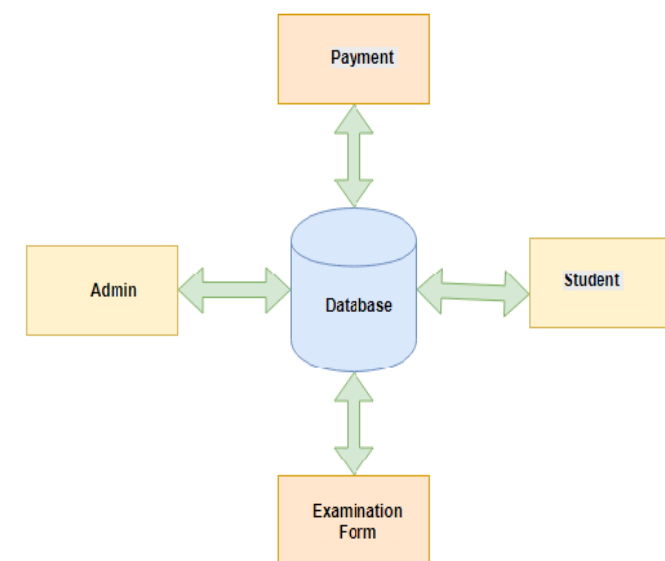

Fig 1: System architecture

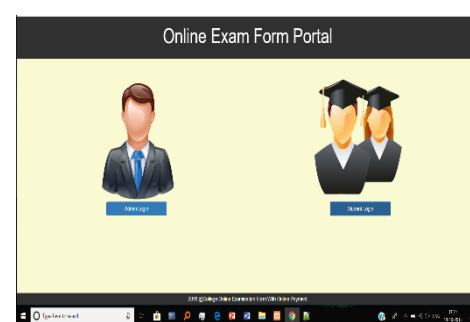

Proposed Work:

- 1. Input:** Input can be given in the form of Login then student can get exam form by generating admin.
- 2. Key-frame Extraction:** Examination form portal System is a web application. The key concept is to minimize the amount of paper and convert all forms of documentation to digital form. It can observe that the information required can be obtained with ease and accuracy in the computerized system.
- 3. Segmentation:** Examination form portal system process a) Login to the examination form portal system. b) Fill Exam Form c) Submit The form then goes to payment option and make payment with card.
- 4. Feature Extraction:** In feature extraction point are identified which uniquely identifies the student form and payment. For feature instamojo payment gateway is used. General problem with time for students • Flexible • Time Saver • Security • Develop a system which allows the admin to create, modify which can be grouped together to form sections.
- 5. Result:** Form can be successfully submitted and make payment successfully.

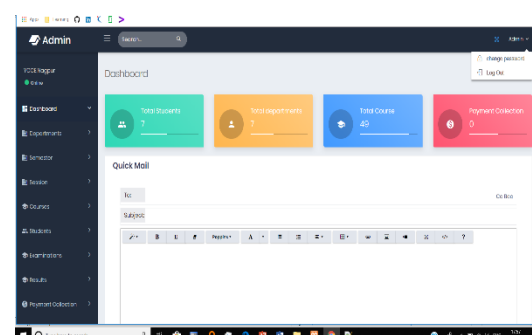

Conclusion and Future scope:

Conclusion: The End Semester Exam Form System is developed using Php, jQuery, JavaScript, Bootstrap and MySQL fully meets the objectives of the system for which it has been developed. The system has reached a steady state where all bugs have been eliminated. The system is operated at a high level of efficiency and all the students and admin associated with the system understands its advantage. The system solves the problem. It was intended to solve as requirement specification. Scope of this project is very broad in terms of other manually fill exams form. This can be used in educational institutions as well as in corporate world. Can be used anywhere any time as it is a web-based application (user location doesn't matter).

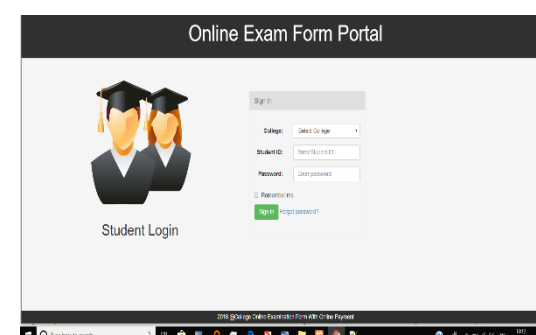

Experimental Result:

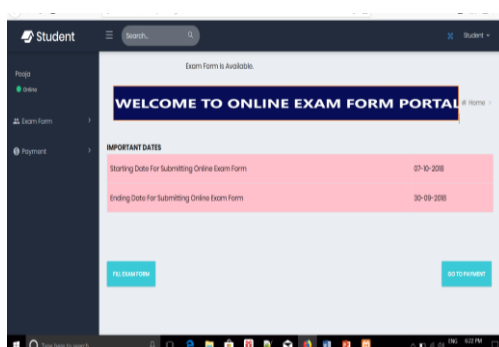

1.Main page

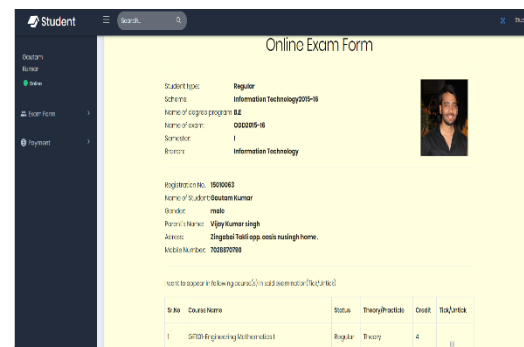

2.Admin Dashboard

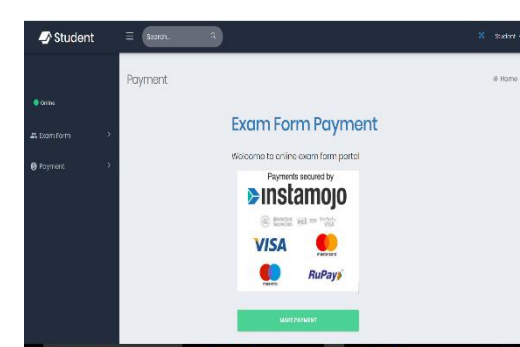

3.Student Login

4.Student Dashboard

5.Exam Form

6.Payment

Results Analysis:

System	Number of Student	Number of Time to Submit the Exam Form
Offline Exam Form	1 Student	2 Days
Examination Form Portal	No Limit	5 Minute
